VEECHELZ

Architectural & Technical Specifications

Premium Window Blinds, Shading Systems & Interior Wall Paneling — Engineered for Residential and Commercial Projects Across Nigeria

---

Product Collections

Day & Night Blinds (Zebra)

Dual-layer fabric systems for adjustable light filtering and modern elegance.

- Dual-layer alternating sheer/opaque bands
- Adjustable privacy without full closure
- Chain, cordless, or motorized operation

Blackout Roller Blinds

Heavy-duty light-blocking systems ideal for bedrooms and corporate conference rooms.

- Up to 99% UV blocking, 100% blackout fabric option
- Thermal insulating, noise-reducing composite
- Motorized option with smart-home integration

Venetian & Wooden Blinds

Classic horizontal slat systems optimized for executive spaces.

- 25mm aluminum or 50mm wood/faux-wood slats
- Real wood grain or powder-coated aluminum finishes
- Cordless, child-safe tensioner options

Interior Wall Paneling

Modern soft-furnishing and fluted wall panels for residential and commercial interiors.

- Fluted and smooth panel profiles
- Acoustic and moisture-resistant options
- Custom finishes to match project palette

Slat & Fabric Profiles

Aluminum Slats

- 25mm thick extruded aluminum, powder-coated with UV protection
- Matte, satin, and gloss finishes available
- Corrosion-resistant for humid environments

Wood & Faux-Wood Slats

- 50mm natural basswood or premium faux-wood
- Faux-wood offers moisture resistance for bathrooms/kitchens
- Stainable and paintable options available

Blackout Composite Fabrics

- Flame-retardant, triple-weave composite, wipe-clean surface
- 100% blackout capability, up to 99% UV blocking
- Available in black, white, and neutral tones

Performance Specifications

Specification	Aluminum	Natural Wood	Faux-Wood	Blackout Fabric
Thickness	25mm	50mm	50mm	0.45mm
UV Blocking	85%	75%	80%	99%
Water Resistance	Excellent	Poor (indoor)	Excellent	Excellent
Fire Rating	Non-combustible	Combustible (treated)	Self-extinguishing	Flame-retardant
Temp. Tolerance	-20°C to 80°C	0°C to 40°C	-10°C to 50°C	-10°C to 60°C
Wind Load	Class 4 (110km/h)	Class 2 (60km/h)	Class 3 (90km/h)	Class 3 (90km/h)

Motorization & Smart Home Integration

- 24V DC (battery/solar) or 220V AC tubular motors
- Quiet operation (<44dB) with soft start/stop and programmable limits
- RF remote (433MHz rolling code), Tuya WiFi/Zigbee, Alexa, Google Home, Apple HomeKit (via bridge)

Warranty & Services

- 5-year warranty on all installed systems
- Nationwide delivery — Lagos, Abuja, Port Harcourt & beyond
- Free on-site survey (Abuja municipal); interstate survey fee 100% rebated on order
- Certified installation teams and B2B / contract supply for developers

This document is a general summary of Veechelz product specifications and is provided for planning purposes. Final specifications are confirmed following an on-site survey. Contact: veechelzngltd@gmail.com
